

# Kirk T. Mescher Award Application

The Kirk T. Mescher Award was established in 2015 after the tragic loss of one of the brightest and most innovative LEED certified engineers, Kirk Mescher of CM Engineering. It was Kirk’s passion to find new and creative ways to make projects as energy efficient but as simplistic as possible. So in his honor, this award will be given out to professional engineers, teaching faculty, and engineering students who have that same passion. Applicants should have an idea in GSHP, HVAC, or energy efficiency that is simple and elegant and should want to put that idea to the test. The award will be administered through the ASHRAE St. Louis Chapter and is currently available to all ASHRAE Members.

Example award application can include (but are not limited to):

- Practicing Engineers interested in attending a Ground Source Heat Pump (GSHP) course from ASHRAE or other provider or for purchase of design software, books, tools, etc.
- Teaching faculty interested in developing course material on GSHP or otherwise providing GSHP information to students.
- Students interested in a career in HVAC and interested in attending an ASHRAE Conference or course addressing GSHP.

Submission Details: Please email a copy of your application to [lisa@meline.com](mailto:lisa@meline.com) or mail a copy of your application to: Lisa Meline, P O Box 276665 Sacramento, CA 95827.

**Deadline: Monday, November 5, 2018**
